---

Shay Scott, Ph.D. is Managing Director of the Global Supply Chain Institute, Director of the Executive MBA for Global Supply Chain, and a faculty member of the Department of Marketing and Supply Chain Management at The University of Tennessee (UT) which was recently ranked #1 globally for supply chain research. In this capacity, Dr. Scott works closely with the Institute's corporate and institutional partners to advance the knowledge and practice of supply chains globally. He serves as a core faculty member for the Executive MBA for Strategic Leadership and the Executive MBA for Global Supply Chain programs in addition to other teaching duties in UT's graduate, undergraduate, and executive education programs.

Prior to joining the UT faculty he led the Americas International Logistics organization at Dell where he had responsibility for Dell's outbound supply chain from the US to points throughout the world. While at Dell he also held a variety of other positions of increasing responsibility including a leadership position with Dell's DSi2 project prominently featured in publications such as the Wall Street Journal and Businessweek. Dr. Scott earned a US patent for innovative supply chain processes developed and implemented globally as a part of this project.

Dr. Scott holds a Ph.D, an MBA, a Master of Science in Systems Engineering, and a Bachelor of Science in Civil Engineering. His research focuses in international business, supply chain management, and the future of management education. Scott has consulted with firms in the high tech, consumer goods, aerospace, transportation, international logistics, and chemical industries. He has studied, worked, and traveled in over 40 countries on six continents
