---

Sean Willems is the Haslam Chair in Supply Chain Analytics. Willems pioneered the development of commercial-grade inventory optimization tools. In 2000, he co-founded Optiant, a provider of multi-echelon inventory optimization tools, which was later acquired by Logility, Inc. His highly recognized work with companies such as Hewlett Packard and Proctor & Gamble has led to prestigious finalist selections for the 2003 and 2010 Franz Edelman Award for Achievement in Operations Research and the Management Sciences as well as finalist selections in 2006, 2008 and 2012 for the Daniel H. Wagner Prize for Excellence in Operations Research Practice. His work on inventory placement under non-stationary demand won the Wagner Prize in 2008.

Willems is the department editor of the practice section of the journal Production and Operations Management. He received his bachelor's degree in decision sciences from the University of Pennsylvania's Wharton School and his master's in operations research and doctorate in operations management from the MIT Sloan School of Management.
